SUMMARY

Information Systems undergraduate student (5th semester) at Multimedia Nusantara University with a strong interest in Frontend Development, UI/UX Design, and Database Development. Experienced in academic and personal projects involving application prototyping, web planning, data modelling, and object-oriented programming. Highly motivated to gain hands-on experience through an internship and contribute to real-world digital projects.

EDUCATION

Multimedia Nusantara University | Information System | GPA: 3.21/4.00

Aug 2023 - Present

Area of Interest: UI/UX, Web Developing, Frontend Development

Achievements:

PROJECT EXPERIENCE

- Designed a UI/UX prototype for an anti-bullying application intended for campus and school environments. Responsible for creating user flows, wireframes, and interactive prototypes using Figma, with a strong focus on usability, accessibility, and user-centered design principles.
 - Designed a website planning concept for “Libro,” UMN’s cafeteria, including layout structure, navigation flow, and visual design. Applied basic frontend development principles using HTML and CSS to support responsive and user-friendly interfaces.
 - Participated in a Kaggle competition as part of a Data Modelling course, involving data exploration, preprocessing, and basic modelling techniques. Gained practical experience working with real-world datasets and understanding data-driven problem solving.
 - Developed a console-based application to manage a simplified zoo environment as part of an Object-Oriented Programming course. Implemented OOP concepts such as classes, inheritance, and encapsulation, strengthening logical thinking and problem-solving skills.
-

ORGANIZATIONS

Position | Organization

- Documentation & Visual Team Member | SIM (Social Is Me) Handled photo and visual documentation for organizational events, including capturing, editing, and organizing visual materials. Designed visual content for social media and internal publications, and collaborated with team members to support creative and promotional needs.
 - Documentation & Visual Team Member | DISCO (D’Information System Community Outbound) Responsible for event documentation and the preparation of visual materials for organizational activities. Assisted in producing creative assets and worked closely with the documentation and creative teams to ensure consistent and engaging visual output.
-

SKILLS

Communication | Analytical Thinking | Problem-Solving | Teamwork | UI/UX Design (Figma) | Frontend Basics (HTML, CSS, basic JavaScript) | Database Fundamentals
